## Objective

---

I am a recent graduate with a strong interest in software development and hands-on experience in web technologies like React, Node.js, and Python. I enjoy building practical applications and solving real-world problems through code. I am looking for an opportunity where I can contribute, learn from experienced developers, and grow my skills in a professional environment.

## Education

---

### SR Institute of Management and Technology, Lucknow

B.Tech in Information Technology

May 2020 - May 2024

## Projects

---

### Smart Weather Forecast App (Hackathon Winner)

Developed a real-time weather forecasting application using Flask and OpenWeather API.

Integrated machine learning model for predictive weather analysis.

Designed RESTful APIs for efficient data retrieval and processing.

Improved user experience with dynamic UI updates and real-time responses.

### Resume Builder (Web Project)

Created a web-based resume builder using HTML, CSS, and JavaScript. Implemented real-time preview and structured form handling. Added input validation to ensure accurate and user-friendly data entry.

Enabled users to generate professional resumes instantly.

### Application Tester (Python Project)

Developed an automated testing tool in Python to identify application errors. Reduced manual testing effort by automating basic test cases. Utilized Python libraries for efficient test execution and reporting.

### Captcha-Based Security System

Designed a CAPTCHA validation system using JavaScript. Prevented automated bot access by verifying human input. Enhanced login security and reduced unauthorized access attempts.

## Technical Skills

---

- **Programming Languages:** Java, Python, C, JavaScript
- **Web Development:** HTML, CSS, React, Node.js, Express.js
- **Operating Systems:** Windows 10/11, basic Linux
- **Concepts:** OOP, Data Structures (basic), DBMS
- **Tools:** Git, Docker, Visual Studio Code, Postman, Figma
- **Soft Skills:** Strong Analytical Thinking, Leadership, Adaptability, Effective Communication

## Hobbies and Interests

---

Competitive Coding, AI Research, Hackathons, Photography, Robotics Projects

## Strengths

---

- Quick learner and willing to improve
- Good problem-solving ability
- Able to work in a team environment
- Consistent and dedicated towards work

## Declaration

---

I hereby declare that the above information is true to the best of my knowledge.
